**Nginx Task 2**
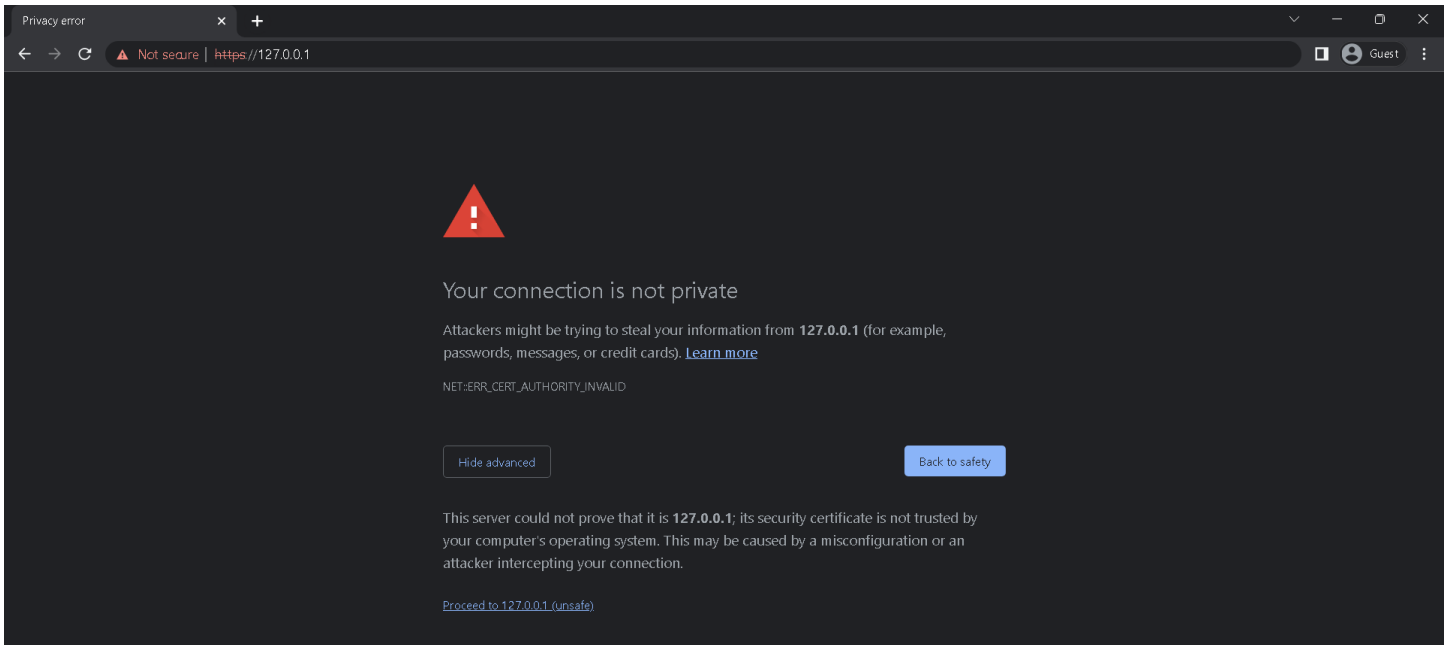

1 - configure the same nginx website to serve traffic with SSL self signed certificate

The Solution:

1 –

Hello Sprints [Amr Ashraf :)]

Your connection is not private

Attackers might be trying to steal your information from **127.0.1** (for example, passwords, messages, or credit cards). Learn more

NET::ERR_CERT_AUTHORITY_INVALID

Hide advanced   Back to safety

This server could not prove that it is **127.0.0.1**; its security certificate is not trusted by your computer's operating system. This may be caused by a misconfiguration or an attacker intercepting your connection.

Proceed to 127.0.0.1 (unsafe)
